OUR DIGITAL NEWSLETTER APPEARS TWICE A WEEK!

Ocean Energy Resources

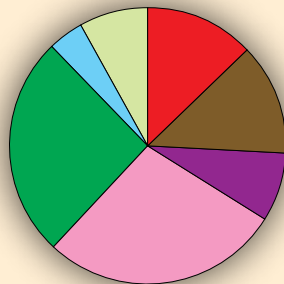

Editorial formula:

For more than 35 years **Ocean Energy Resources** is the leading trade journal in the Netherlands for the complete upstream, oil and gas industry and the renewable energy business. Our readers are informed about the oil, gas and renewables industry through professionally written articles and running commentary in which technical developments and innovative technology are the main topics. In addition the magazine acts as the voice of the IRO (Association of Dutch Suppliers in the Offshore Energy Industry) as well as NWEA, the Netherlands WindEnergy Association and promotes the interests of their members to the national government and potential clients.

Editorial:

For news alerts or long copy articles, please contact Han Heilig, han@practica.nl

Reader Profile:

- Marine Contracting companies 8%
- Service, Support & Supply companies 28%
- Design, Engineering, Installation & Construction companies 26%
- Heavy Lift & Transport companies 4%
- Decommissioning companies 8%

Get your message recognised by the right target groups

As from 2020 we publish a digital interactive edition of **Ocean Energy Resources** online, offering additional means of advertising. With the large increase of technology being used, **Ocean Energy Resources** makes it surprisingly affordable to advertise on a far larger scale.

In addition to the digital edition of OER that we publish four times a year, a news overview with the latest newsworthiness appears twice a week. This OER Newsletter reaches tens of thousands of readers per month; key buyers and decision makers in the oil, gas and renewable industries. This is certainly a worthwhile option of getting your product/service recognised by the right target groups.

With such a large circulation of relevant readers advertising in OER is definitely money well spent.

World Distribution	Top 5 ranking European countries	Top 5 international ranking by country
